

## File Prep

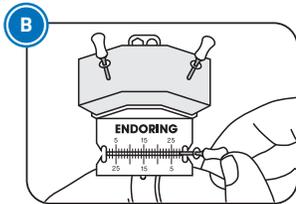

## ⚠ Instructions for Use

## e-Foam® Inserts

Always use new files or previously used instruments cleaned with ultrasonic cleaning prior to placing them into a new piece of e-Foam insert for steam autoclave processing. Files can be placed directly into a new single use e-Foam insert and then placed into a standard pack for steam autoclave processing. Avoid placing heavy objects onto the autoclave pack to avoid deforming the foam.

**A.** Place the Jordco e-Foam insert into the EndoRing cup. Pull the e-Foam insert out the bottom of the cup to seat the e-Foam insert.

**B.** Arrange hand files, rotary files or other instruments such as Gates Gliddens into the e-Foam insert. Remove all file bioburden prior to autoclaving files in the e-Foam insert. When using rubber stops, utilize the stop locks on either the built-in ruler or the detachable metal ruler to increase or decrease the instrument's working length. The rulers perform well with paper points, gutta percha and many other endodontic instruments. To efficiently clean instruments simply pass them in and out of the e-Foam insert. You can also clean instruments by sliding them through the corrugated area on top of the e-Foam insert. Rubber stops can be safely added to instruments using the ports located on the back of the EndoRing cup.

## Processing Instructions:

### Single Use e-Foam Inserts

②

Steam autoclave a new e-Foam insert prior to use. Unused or ultrasonically cleaned files may be placed in the e-Foam insert prior to processing. Autoclaving **will not** remove bioburden left behind from prior usage. The e-Foam insert, along with files, may be placed in an FDA approved autoclave pouch/bag prior to processing. **Do not exceed temperature of 275°F (135°C).** To avoid deforming the e-Foam insert, do not load or stack items on top of the e-Foam insert during autoclave processing. Dispose of after each use.

Symbols Glossary Available at: [www.jordco.com/symbols](http://www.jordco.com/symbols)

Jordco products are covered by one or more U.S. or foreign patents or patent applications owned by Jordco, Inc. of Beaverton, OR, USA. See [www.jordco.com](http://www.jordco.com) for details. JORDCO, ENDORING, E-FOAM, ENDOGEL, E-DX, and FILECADDY are trademarks of Jordco, Inc., registered in the United States and/or other countries. The blue color of the e-Foam inserts and the endodontic organizer, the yellow color of the e-Foam inserts, and the colors yellow and blue-yellow together on e-Foam insert packaging, are all trademarks of Jordco, Inc., registered in the United States.
